

HOME EQUITY EARLY DISCLOSURE IMPORTANT TERMS OF OUR HOME EQUITY LINE OF CREDIT PLAN

This disclosure contains important information about our Home Equity Line of Credit Plan. You should read it carefully and keep a copy for your records.

AVAILABILITY OF TERMS: All of the terms described below are subject to change. If these terms change (other than the annual percentage rate) and you decide, as a result, not to enter into an agreement with us, you are entitled to a refund of any fees that you pay to us or anyone else in connection with your application.

SECURITY INTEREST: We will take a security interest in your home. You could lose your home if you do not meet the obligations in your agreement with us.

POSSIBLE ACTIONS: We can terminate your line, require you to pay us the entire outstanding balance in one payment, and charge you certain fees, if (1) you engage in fraud or material misrepresentation in connection with the plan; (2) you do not meet the repayment terms of this plan, or (3) your action or inaction adversely affects the collateral or our rights in the collateral.

We can refuse to make additional extensions of credit or reduce your credit limit if (1) any reasons mentioned above exist; (2) the value of the dwelling securing the line declines significantly below its appraised value for purposes of the line; (3) we reasonably believe that you will not be able to meet the repayment requirements due to a material change in your financial circumstances; (4) you are in default of a material obligation of the agreement; (5) government action prevents us from imposing the annual percentage rate provided for in the agreement; (6) the priority of our security interest is adversely affected by government action to the extent that the value of the security interest is less than 120 percent of the credit line; (7) a regulatory agency has notified us that continued advances would constitute an unsafe and unsound business practice, or (8) the maximum annual percentage rate is reached.

MINIMUM PAYMENT REQUIREMENTS: You can obtain credit advances for 5 years. This period is called the "draw period." At our option, we may renew or extend the draw period. After the draw period ends the repayment period will begin. The length of the repayment period will depend on the balance at the time of the last advance you obtain before the draw period ends. You will be required to make monthly payments during both the draw and repayment periods. At the time you obtain a credit advance a payoff period of 180 monthly payments will be used to calculate your payment.

The payoff period will always be the shorter of the payoff period for your outstanding balance or the time remaining to the maturity date. Your payment will be set to repay the balance after the advance, at the current annual percentage rate, within the payoff period. Your payment will remain the same unless you obtain another credit advance. Your payment may also change if the annual percentage rate increases. A change in the annual percentage rate can cause the balance to be repaid more quickly or more slowly. We will check your plan every year to determine the effect any annual percentage rate increase has had on your payment. If the

annual percentage rate has increased so much that your payment is not sufficient to repay the balance within the payoff period, we will adjust your payment to repay the balance within the original payoff period. Each time the annual percentage rate increases, we will check to see if the payment is sufficient to pay the interest that is due. If not, we will increase your payment by the amount necessary to repay the balance at the new annual percentage rate within the original payoff period. If, after our last review of your plan prior to the maturity date, the annual percentage rate increases so much that your payment is not sufficient to repay the balance before the maturity date you will be required to make more payments of the same amount. Your payment will include any amounts past due and any amount by which you have exceeded your credit limit, and all other charges. Your payment will never be less than the smaller of \$100.00, or the full amount that you owe.

MINIMUM PAYMENT EXAMPLE: If you made only the minimum monthly payment and took no other credit advances it would take 9 years 9 months to pay off a credit advance of \$10,000 at an **ANNUAL PERCENTAGE RATE** of 3.25%. During that period, you would make 117 payments of \$100.00.

FEES AND CHARGES:

You must pay certain fees to third parties to open the plan. These fees generally total between \$0.00 and \$1,000.00. If you ask, we will provide you with an itemization of the fees you will have to pay third parties.

PROPERTY INSURANCE: You must carry insurance on the property that secures this plan. If the property is located in a Special Flood Hazard Area we will require you to obtain flood insurance if it is available.

The following notice is required by New York law. You are required to obtain property insurance on the property that is security for your mortgage loan. We cannot require you to obtain an insurance policy in excess of the replacement cost of the improvements on the property securing the loan.

REFUNDABILITY OF FEES: If you decide not to enter into this plan within three business days of receiving this disclosure and the home equity brochure, you are entitled to a refund of any fee you may have already paid.

TRANSACTION REQUIREMENTS: The minimum credit advance that you can receive is \$2,000.00 for the first advance and \$100.00 for each subsequent advance.

TAX DEDUCTIBILITY: You should consult a tax advisor regarding the deductibility of interest and charges for the plan.

VARIABLE RATE FEATURE: This plan has a variable rate feature and the annual percentage rate (corresponding to the periodic rate) and the minimum payment may change as a result. The annual percentage rate includes only interest and no other costs.

The annual percentage rate is based on the value of an index. The index is the Prime Rate published in the Money Rates column of the Wall Street

Journal. When a range of rates has been published the highest rate will be used. We will use the most recent index value available to us as of 15 days before the date of any annual percentage rate adjustment.

To determine the annual percentage rate that will apply to your account, we add a margin to the value of the Index. Ask us for the current index value, margin and annual percentage rate. After you open a plan, rate information will be provided on periodic statements that we send you.

RATE CHANGES: The annual percentage rate can change annually on the first day of the month following the anniversary date of opening your plan. There is no limit on the amount by which the annual percentage rate can change during any one year period. The maximum **ANNUAL PERCENTAGE RATE** that can apply is 18.0% or the maximum permitted by law, whichever is less.

MAXIMUM RATE AND PAYMENT EXAMPLES: If you had an outstanding balance of \$10,000, the minimum payment at the maximum **ANNUAL PERCENTAGE RATE** of 18.0% would be \$161.07. This annual percentage rate could be reached at the time of the 13th payment.

NOTICE: You are required to obtain property insurance on the property that is security for your mortgage loan. We cannot require you to obtain an insurance policy in excess of the replacement cost of the improvements on the property securing the loan.

FEE REIMBURSEMENT: If the credit union pays fees to third parties to open the plan and the borrower subsequently has a zero balance and

terminates the plan within three years of originating it, the borrower will be responsible to reimburse the credit union.

MINIMUM ANNUAL PERCENTAGE RATE: The **ANNUAL PERCENTAGE RATE** will never go below your index plus margin.

HISTORICAL EXAMPLE: The following table shows how the annual percentage rate and the minimum payments for a single \$10,000 credit advance would have changed based on changes in the index over the past 15 years. The index values are from the last business day of July of each year. While only one payment per year is shown, payments may have varied during each year.

The table assumes that no additional credit advances were taken, that only the minimum payments were made, and that the rate remained constant during each year. It does not necessarily indicate how the index or your payments will change in the future.
